

# IRT 2018

INTERACTIVE RESPONSE TECHNOLOGIES IN CLINICAL TRIALS

## Progressive Insights and Practical Strategies to Drive Clinical Trial and Supply Chain Efficiencies

OCTOBER 22-23, 2018 • HILTON PENN'S LANDING • PHILADELPHIA, PA

### CBI's 8th Annual Interactive Response Technologies in Clinical Trials — IRT 2018

unites nearly 200 clinical and supply chain pioneers, and is dedicated to solution-oriented discussions and benchmarking for utilizing this powerful system to inform trial decision-making on both a strategic and operational level. This industry acclaimed meeting continues to be the must attend event of the year!

#### Benefit from Practical Case Studies and Interactive Discussions Addressing:

- Approaches to ensure GDPR compliance
- Impacts of Brexit on clinical trial supply
- Key Considerations for the execution of direct-to-patient trials
- Approaches for the efficient deployment of system change requests
- Best practices for UAT and IRT system validation
- Operational best practices to enhance clinical trial management
- Forecasting and demand planning to minimize drug wastage

#### Who Should Attend:

You will benefit from attending this event if you have responsibilities or involvement in the following areas:

- IVR / IWR / IRT / RTSM
- Clinical Supply
- Drug Supply
- Supply Chain
- Clinical Technology
- Clinical Outsourcing
- Data Management
- Clinical Trial Management
- Clinical Operations
- Clinical Development
